- **November 28-29, 2013: 2nd Workshop Structural Biology in the Helmholtz Association; Munich, Germany**

For copies of any of the presentations from the events we have attended, please email your request to: contact@eadmet.com

Our latest news:

- **Sergii Novotarskyi successfully defends his PhD**
Please join us on congratulating Sergii on his success. He will receive his doctoral credentials from the Technical University of Munich. During his work in group of Dr. Tetko, Sergii investigated different QSAR approaches to predict human cytochrome P450 inhibition. Sergii has previously received his Master's degree in "Computer Engineering", specialized in computer systems and networks from the National Technical University of Ukraine "KPI".
- **Dr. Joachim Vogt joined our team to strengthen business development**
We're happy to announce a new team member, Dr. Joachim Vogt, who will be responsible for business development. Joachim joins us from Wilex AG where he negotiated licensing and distributor agreements. At GPC Biotech AG he headed an international team of computational chemists in Munich and Boston. He received his doctorate degree in protein crystallography and his diploma in chemistry from the University of Freiburg.
